

1           **(BSP October 13, 2003)**

2           **Removing Top Layer of Existing Pavement Surfacing from Bridge Deck**

3           The Contractor shall remove the top layer of existing pavement surfacing from the  
4           roadway deck of Bridge No(s) \*\*\*\$\$1\$\$\*\*\*. The depth of removal shall be either  
5           the depth shown in the Plans or to just above the cement concrete surface of the  
6           existing bridge deck to remain in place, whichever is less.

7  
8           The Contractor shall submit the method and equipment proposed for the removal  
9           operation to the Engineer for approval. The Contractor shall demonstrate to the  
10          satisfaction of the Engineer that the proposed removal method and equipment are  
11          adequate for the intended purpose and will provide satisfactory results. The  
12          Contractor shall not begin bridge deck pavement surfacing removal operations until  
13          receiving the Engineer's approval of the removal method and equipment.

14  
15          The Contractor's bridge deck pavement surfacing removal operations shall not  
16          damage the existing concrete bridge deck. All damage to the existing concrete  
17          bridge deck shall be repaired in accordance with Section 1-07.13 and as approved  
18          by the Engineer.
